From the Administrator...

Last March, HCCC celebrated its 14th anniversary. After 14 years, the facility and grounds are beginning to show a little wear and tear. In April, the dining room patio was replaced, to eliminate any trip hazards created by shifting concrete. Raised flower boxes were added in the process.

Soon you should see updates inside the building. Three years ago, the carpeting in the hallways, offices and common areas was replaced. This summer, we hope to begin replacing the carpet and wallpaper in residents' rooms, including the bathrooms. This will be a big project with many phases. As these steps become clearer, you will be kept informed.

During this project, our focus will be on providing a homelike environment while still meeting our regulatory obligations. Thank you in advance for your patience and cooperation.

Cindy Berg, NHA

VERANDA DINING

*With the return of summer, we
would like to resume our*

Dining on the Veranda.

*Residents are invited to join our
administrator, Cindy for lunch on
the dining room patio. Weather
permitting, we will begin this
weekly event in June.*

*Last summer's cool weather
limited the days we were able to
enjoy lunch outside so we are
hoping for better weather this
year.*

Rummage Sale News

We would like to thank everyone who helped make our second rummage and bake sale a success. Thank you for your donations of items to be sold, baked goods and for those of you who purchased these items. Because of your generosity, we made over \$250.00 for the activity department! We will put the money toward 100's patio vegetable garden. We would like to raise the height to wheelchair level so residents could help plant and tend it.

Thanks again!

NURSING NEWS . . .

As the world of health care moves forward with computerized medical records, so does HCCC. During the next three months, our nursing department will be adding the use of laptops to document on resident care at the point of service. We are also adding wall-mounted touch screens for the CNA's to input care information directly into the computer rather than on paper. These are exciting changes that should increase accuracy and efficiency. In addition, these system changes will result in wireless internet services becoming available to any residents and visitors using their own equipment. The resident will also have a computer available for their use in the 100's Day Room.

Activity News: We have been busy during the past quarter. Our Art Therapist Intern held her senior art show at Alverno College and we were able to see her art work on display. We also attended field trips bowling, shopping and a tour of the Wisconsin Humane Society. In May we celebrated National Nursing Home Week. We enjoyed ice cream sundaes, music entertainment, had Bonus Bingo (double prizes!) and finished the week with a cookout lunch. For National Movie Day, our gathering room was transformed
